March 3, 2016

Residents and Friends,

Since the last public meeting on the two initial Town Hall concepts and the suggestions that were made by December 21 through email the following has taken place:

Site Options:

Site #1 - Corner of Dandy Lane & West Street - directly across the road from Green Family Forge - was not a favourable location to the Province who owns the land and was not an ideal site according to feedback received.

Option #2 In the Field Area in the centre of Town - did not work due to boggy conditions.

Option #3 On West Street between the property of Ada Nemeč & the Visitor Centre - test pits that were done between Christmas and New Year's has proven the soil to be good. We currently have a request into the province for this piece of property to be given to the Town.

Option #4 Corner of Church Road and Dandy Lane - directly across the road from the Hiscock House - test pits revealed the area to be to boggy.

Option #5 Off Church Road, between St. Paul's Anglican Church and Clinch's Lane - test pits revealed the area to be to boggy.

New Concept Drawing: - based on the new location being Option # 3 and the feedback received both at the public information session and received on-line the architectural team at Fougere Menchenton Architecture in St. John's have now come up with the attached building concept.

Please review the concept and send your input to the Town through any of the means listed below. **We would appreciate all feedback be submitted by Sunday, March 13. A public meeting will be held on Tuesday, March 15 at 10 am at the Parish Hall for further input.**

Please note that this will be the last opportunity for public consultation on the building design and the Town will be moving forward with a decision on the building concept after the public meeting in order to begin the next phase of finalizing the building drawings and preparing the land for construction this season.
